DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-69 and 99-109, drawn to Personal Video Recorder that is able to playback recorded ads/commercials based on an event/trick play, classified in class 386, subclass 46.
- II. Claims 70-98, drawn to a video distribution system with interactive data (i.e. commercial) transmitted in video signal, classified in class 725, subclass 136, 139, and 142.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)).

In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the detail of the broadest sub-combination claim 70 of Group II such as, receiving an advertisement, recording the advertisement, receiving the processing rules.

Art Unit: 2611

The subcombination has separate utility apart from the Personal Video Recorder and can be used other than Playback/Record in a Personal Video Recorder such as Video distribution system with Interactive data transmitted in a video signal.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
